AI Enablement & Change Management · AI Training · AI Products

Founder, ZenFrog AI, a division of ZenFrog LLC

Taylors, SC | (864) 823-3764 | dane@zenfrog.ltd | zenfrog.ltd | linkedin.com/in/dane-bonnigson | danebonnigson.com

PROFESSIONAL SUMMARY

I get people to change how they work with AI, then build the AI tools that keep them using it. As a principal, I took a full school staff from 0% to 86% daily AI use in 15 months with no mandates. Now I run ZenFrog AI, where I train teams on AI and build AI products, client apps and agents with Claude. 21 years in education, 8 years leading staff, an MBA and an M.Ed. in Educational Technology.

AI SKILLS

AI enablement	AI adoption programs · AI training and curriculum design · prompt training · responsible AI and data-safety training · adoption and time-saved metrics
Building with AI	Prompt design · custom Claude skills · AI agents · human-in-the-loop escalation · confidence scoring and guardrails · testing AI output against test cases · AI-assisted coding · Claude API integration · AI video and media pipelines
AI tools	Claude (chat, Claude Code, desktop) · Claude API on Cloudflare Workers · Gemini for Google Workspace · TypeSafe Jev · SwiftUI and Xcode · React · Playwright · Python · FFmpeg · HyperFrames
Change management	Adoption without mandates · stakeholder buy-in · staff training and PD · self-service support docs · vendor selection and rollout · KPI dashboards · people leadership

PROFESSIONAL EXPERIENCE

Founder | ZenFrog AI (formerly PalmettoGroup.ai), a division of ZenFrog LLC, Taylors, SC **Aug 2025 – Present**

- Built ZenFrog AI, a full AI course that takes learners from beginner to finished builds: 8 sessions, 34 lessons, 8 builds with Claude and ChatGPT steps, 258 practice questions and a mock assessment. Launching at zenfrog.ai.
- Built ZenFrog Studio, a Mac AI video editor in use through 20+ releases: Claude decides the cuts, code renders captions, graphics and music, and access is limited to one folder with automatic face blurring. See it
- Built Decision Desk, an AI lead-scoring agent: the model answers narrow judgment questions, code makes the final call, and low-confidence leads go to a person. See it
- Shipped 3 iPhone apps to the App Store, built in SwiftUI with Claude Code: F3 Q Sheet: Workout Leader (approved by F3 leadership to use official branding), Gains in Progress (200-lift library, goal-based plans) and NowNext (ADHD planner with a daily pick-3 and focus timer).
- Wrote 63 custom Claude skills for SEO audits, competitor research, proposals and content, tested against test cases; every finding links to its source and a person signs off before anything ships.
- Built Exam in Progress, an exam study app a fire-safety company's team uses to prepare for NFPA 10 licensing exams, and create and release the company's social media content.
- Ran SEO for an auction company: a fully sourced audit and 90-day plan that led to a website upgrade and increased traffic.

Principal | Western Reserve Middle School, Collins, OH **Jul 2023 – Aug 2025**

- Led staff AI adoption from 0% to 86% daily use in 15 months with no mandates, saving 12+ staff hours a week combined. Built the training curriculum and support docs, shared AI tools I built and made the case for AI to upper administration.
- Raised a bottom-5% school to state average in two years (Ohio School Report Cards); state test scores up 18%, student failure rates down 67%.
- Reached 99.98% completion across 86,779 assignments with a school-wide tracking system and live dashboards.
- Led the IXL rollout from pilot to district-wide: vendor selection, contracts, onboarding and staff training.

Virtual Learning Academy Coordinator | Woodmore Schools, Elmore, OH **Jul 2017 – Jun 2023**

- Scaled K-12 online learning from 100 to 1,000 students through a vendor solution; kept graduation above 93% (Grade A) every year.
- Trained all staff and graders on the LMS, built self-service support sites and supervised the grading teachers, including their pay.
- Built a live Excel dashboard for stakeholders and saved the district $20,000 with a distance learning alternative.

EDUCATION

M.B.A., Bowling Green State University (2016) · M.Ed., Educational Technology, CS Endorsement, 4.0 GPA, Bowling Green State University (2009)

CERTIFICATIONS, LICENSURE & HONORS

Gemini for Google Workspace (Google Cloud) · Google Workspace Administrator · Generative AI for BI Analysts (IBM) · AI-Powered Data Analysis (U. of Michigan) · Educational Administration Licensure (Ohio Principal)

Top 15% nationally, Capsim MBA simulation · Four-year Division I varsity wrestler, Eastern Michigan University
