AI Agent Enablement · AI Products · People Leadership
Taylors, SC | (419) 656-5760 | dbonnigson@gmail.com | linkedin.com/in/dane-bonnigson | danebonnigson.com/portfolio

PROFESSIONAL SUMMARY

People leader and hands-on AI builder with 8 years leading staff and 21 years turning new technology into everyday practice. Led a full school staff from 0% to 86% daily AI use in 15 months, saving the staff 12+ hours a week combined, then built AI products in use today: an AI screening agent that sends low-confidence cases to a person, and an AI video editor with built-in guardrails through 20+ releases. MBA; M.Ed. in Classroom Technology with Computer Science endorsement.

CORE SKILLS

Change Management & Adoption | AI Agent Design & Human Escalation | AI Quality Checks & Guardrails | Prompt Design | Product Ownership & Releases | KPI Tracking & Dashboards | People Leadership & Coaching | Executive & Stakeholder Communication | Training Program Design & LMS Administration | Vendor Evaluation & Platform Rollout | Program Management | Data-Driven Decision Making

PROFESSIONAL EXPERIENCE

Founder, AI and Business Consulting | PalmettoGroup.AI | Aug 2025 – Present

- **Decision Desk (AI agent).** Leads from SAM.gov, Grants.gov, web research and inbound messages were too many to review by hand. Built an agent that scores each lead with a confidence level; code makes the final call and low-confidence cases go to a person. Reused the engine to screen job postings.
- **EDITRON (AI product).** Needed a faster way to turn raw recordings into finished videos. Built an AI editor that makes the cuts and renders captions, chapters and shorts, with guardrails: one-folder access, nothing posts without review, bystanders' faces blurred. In use through 20+ releases.
- **Workplace Safety Training (client).** A fire-safety company needed pre-class training. Delivered three e-learning courses checked against OSHA 29 CFR 1910.157(g) and 1910.38.
- **Market Review & SEO Audit (client).** A young local service company didn't know where it stood online. Delivered a graded SEO scorecard, eight-competitor review and 90-day plan, with every finding sourced.
- **3 iPhone apps on the App Store:** Gains in Progress (fitness tracking), F3 Q Sheet (workout planning for F3 leaders) and NowNext (to-do list sorted by energy level).

Principal | Western Reserve Middle School, Collins, OH | Jul 2023 – Aug 2025

- Led AI adoption from 0% awareness to 86% daily use across staff in 15 months through structured professional development, saving the staff 12+ hours a week combined; built and shared AI tools with teachers and advocated for AI use with upper administration.
- Raised a bottom-5% school to state average in two years (Ohio School Report Cards) with a data-driven strategy; state test scores rose 18%.
- Built a school-wide tracking system that reached 99.98% completion across 86,779 assignments.
- Cut student failure rates 67% through data-driven intervention systems and structured tutoring.
- Managed the full vendor evaluation and rollout of IXL, from pilot through district-wide implementation; used LMS and ERP data to guide decisions.
- Set school-wide standards with a behavior matrix, consistent protocols and tracking: major discipline down 55%, IEP discipline referrals down 79%, IEP state test pass rates up 9%.
- Built a district-wide, multi-school master schedule: staff collaboration time up 40%, maximum class sizes down 18%.
- Cut student missed class time 50% with a location management system.

Virtual Learning Academy Coordinator | Woodmore Schools, Elmore, OH | Jul 2017 – Jun 2023

- Supervised the grading teachers, including handling their pay; trained all staff and graders on the LMS and provided ongoing training and technical support.
- Scaled K-12 online learning from 100 to 1,000 students by identifying and implementing a vendor solution.
- Kept graduation above 93% (state report card Grade A) every year through program oversight and credit recovery.
- Built a live Excel dashboard that surfaced student progress and concerns to stakeholders in real time.
- Sourced and implemented a distance learning alternative for opt-out learners, saving the district $20,000.
- Resolved a negotiation impasse by designing a compensation model that secured a 3-year contract.

Teacher, Computing, Business, History & Communication | Woodmore Schools, Elmore, OH | 2004 – 2017

- Created 20+ courses integrating tech platforms, project-based assessments and performance-data tracking.
- Taught Adobe Creative Suite, CSS, HTML and Python.

Co-Founder & Head of Go-to-Market | The Dogwood Company, LLC, Bowling Green, OH | Oct 2017 – May 2022

- Co-founded a skincare product line; led market research, competitive analysis, product positioning and pricing models.
- Managed LLC formation, retail contracts and vendor coordination.
